1000 copies printed @ \$0.08 each for a total cost of \$80

What Is Being Done?

The Michigan Department of Transportation (MDOT) will be constructing a modern roundabout about at the intersection of US-41 and Front Street in the city of Marquette.

This project is funded by the American Recovery and Reinvestment Act (ARRA).

When Will This Be Done?

Construction is scheduled to begin in May and be completed by August.

How Will Traffic Be Affected?

This project will require partial closure of the intersection, and traffic shifts using temporary widening. Alternate routes to reach downtown Marquette from US-41 will be available, and motorists are encouraged to use Grove Street and Washington Street to access the downtown area during construction. US-41 through-traffic will be maintained.

Long-term Benefits

This project will improve safety at this intersection, reduce motorist delay, improve ride quality, and extend the pavement service life by 25 years.

MDOT's 2010 road and bridge program supports the creation of jobs, growth of the economy, preservation of the environment and the safety and security of the transportation system.

How Will We Keep Motorists Informed?

For up-to-date information on this project, go to the list of statewide lane closures at: www.michigan.gov/drive.

More information on this project and the use of roundabouts can be found at: www.michigan.gov/mdotprojects.
